Handler places: Pre-Requisites:

- No known musculoskeletal or orthopaedic health conditions: this is not suitable for dogs which need physiotherapy. Any dogs needing physiotherapy will require a full assessment with a registered veterinary physiotherapist
- Dog-to-dog friendly and human friendly – your dog will need to be able to work within a hall environment around other dogs under observation
- Suitable to be crated – whilst waiting to for part 2 your dog must be crated either in the hall, or in your vehicle during part 1 without exception. You must supply your own crate.
- Clicker training knowledge would be advantageous but not essential
- The handler may need to work at a low level

Equipment needed:

- High value treats
- Water bowl
- Food container with removable lid
- A small blanket or towel
- Cage or secure area in your car. Please note that dogs should not be left in hot cars so you will need to plan for this eventuality
- Harness
- Training lead and normal flat collar
- Means to scoop poop

Equipment or methods not acceptable:

- Check chains
- Half check collars
- Flexi leads
- Stop pull harnesses
- Harsh handling
